Donaldson's School
 Success Through Communication

Be a Star for Donaldson's

We would be grateful if you could support our "Be a Star for Donaldson's" Christmas Campaign 2011. All the funds raised by this campaign will go towards purchasing a range of communication aids to support the pupils who attend the School. By purchasing one of our "Be a Star for Donaldson's" at Christmas window stickers you will be helping us reach our target to purchase communication aids for our pupils, and if you gift aid your donation this will mean an additional 28% to the School, costing you no more than your original donation.

As we have such a wide range of pupils with hearing and communication difficulties, this equipment will allow pupils to interact with each other and they will not be so reliant upon adults or teachers to communicate for them, thus they will become more independent.

£7000 will allow us to update the radio aid system and the radio aid receivers used by 10 pupils within the School.

£12,000 would allow us to purchase radio aid transmitters for the sound field system (PA/amplification system) within the classrooms.

£12,000 would allow us to purchase 24 hand held transmitters, which are used within the classrooms and allow hard of hearing pupils to hear their fellow pupils.

£1000 would allow us to purchase hearing aid test kits, which allows the class teacher to test the pupil's hearing aids.

£2500 for SONA Speech, a software package which can be used for a broad range of speech and voice difficulties. Pupils vocalise into a microphone attached to a PC and the software gives a visual feedback of the sounds they have made. This helps to develop pupil's speech and language.

£1000 for two V-Pens. A hand held communication system, which enables staff to print their own sound enabled communication pages. The pupils can then use the pen to touch a cell on the page, which can have a word, symbol or picture within it. When the pen touches the cell, it speaks the words or plays the MP3 sounds saved within that cell.

£1600 for three iPads and Proloquo2Go software. We are currently trialling the iPad and app with several pupils and have found it to be of great benefit to both our deaf and hearing pupils alike. The app allows pupils to type in words or tap on symbols, which then speaks aloud for others to hear. The app on the iPad has proved particularly beneficial to deaf and hearing pupils who are able to use BSL (British Sign Language) to communicate within Donaldson's, but who require an effective tool for communicating with non-signers in their lives (family, friends and members of the community). The iPad and software allows the pupil to communicate and it also reduces the appearance of a disability and is easy for the pupils to operate.

If you would like to support our campaign, please complete the enclosed form and return it to me with your cheque made payable to Donaldson's or complete your credit/debit card details on the form overleaf. I will send your sticker, which you can display within your house, car or shop/business to show support for Donaldson's School.

Thank you in anticipation of your support and if you have any questions please do not hesitate to contact me on 01506 841 915 or gsinclair@donaldsons.org.uk.

Gill
